WiFi or USB/HDMI
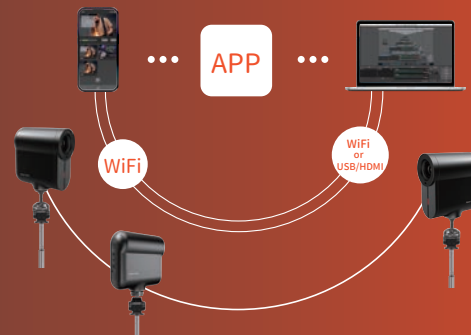

Q03ZW is a 4K portable live streaming camera that comes with a battery and supports WiFi connections. It features a 4K UHD lens that can output high-quality live streaming videos. With its compact size, it is easy to carry around and does not require a power source to start live streaming. The camera can wirelessly connect to a mobile app for video preview, multi-cam switching, camera control, and supports various live streaming platforms. With just a phone, it is effortless to achieve multi-camera streaming.

4K UHD Image

The Q03ZW portable camera is equipped with a 4K UHD lens, capable of outputting ultra-clear video footage. Even in low-light conditions, it can deliver high-quality visual results.

9x Lossless Zoom

The camera supports 3x 4K lossless zoom, 6x 1080P lossless zoom, and 9x 720P lossless zoom, which can be used to showcase richer details over longer shooting distances.
